Come and see why it is absolutely necessary for Catholics to follow the teaching in *Humanae Vitae* if they want to restore God to His rightful place in the family and society. Our speaker has stated **“Pope Paul VI predicted that if contraception was accepted it would lead to widespread divorce, the destruction of the family, compromising of the institution of marriage, abortion on demand and devaluing of human life. People laughed at him. But these predictions have come true.”** Come and hear the **real** explanation of why the Church is opposed to contraception and if followed how this can dramatically change the world, morally and psychologically for the greater good.
